Skills Development- A Division of College H.E.L.P at Marshall University		
Skills Development, a division of College H.E.L.P., works with students to remediate academic skills according to deficit areas as determined by diagnosis of Specific Learning Disability (S.L.D.) and/or Attention-Deficit/Hyperactivity Disorder (A.D.H.D.). Many students diagnosed with S.L.D. and/or A.D.H.D. are also challenged by organizational, working memory, and executive functioning challenges that can significantly impact a student's ability to succeed academically. Skills Development works closely with individual students to address these unique challenges.

<p>The College Program for Students with Autism Spectrum Disorder at Marshall University</p>		
<p>The College Program for Students with Autism Spectrum Disorder was established in 2002. Students participating in the program have met acceptance criteria for Marshall University and have been admitted to The College Program through a separate application process. The program uses a positive behavior support approach to assist participating students. Social, communication, academic, leisure and personal living skills are assessed through person-centered planning. Personal goals are identified and strategies are developed based on the individual needs of each student. The program seeks to help students learn skills which will help them earn a college degree, work in their chosen field, and live a productive, independent, and quality life.</p>
